## Special offer for January 2012 Label Feeder and Module with 20% discount

How do you label your products? Manually or already automatically? A cost effective, very precise and simple alternative to manual labelling is the use of a label feeder. Feed your components simply like a component in the pick and place machine. The label feeder can apply labels in dimensions from 4 x 4 up to max. 50 x 40 mm.

You are already using a Label Feeder but you would like to increase your productivity and equip another line with a label feeder? We propose you the ideal opportunity for your investment!

On all standard label feeder models incl. label module which will be ordered from us till January 31, 2012, we will give you a special discount of 20% on our list prices!

### This means in figures:

All standard models except LPFN

instead of 7.640 EUR  
**now only 6.112 EUR**  
you save 1.528 EUR

Model LPFN for Fuji NXT pick & place

instead of 10.370 EUR  
**now only 8.296 EUR**  
you save 2.074 EUR

pb tec GmbH

Mail: [info@pbt.de](mailto:info@pbt.de)  
Web: [www.pbt.de](http://www.pbt.de)

In this time we also propose special conditions for our labels – let's talk about your requirements. Further informations about feeders and labels you can find on our website under [www.pbt.de](http://www.pbt.de).

We are looking forward to getting your request.  
Best regards,  
Your pb tec Team
